9	0	9	18	27	36	45	54	63	72	81	90
10	0	10	20	30	40	50	60	70	80	90	100

Are you surprised to see the same chart you just colored for multiplication? How can this chart show you the answers to division basic facts? Use colored pencils to illustrate how to use the chart to do 5 different division problems. On the back, explain how you used the chart to solve each problem (be sure to mention each color you used with your explanation).
